

LAUGH & LEARN

Add some PLAY into your workplace with Laugh & Learns!

It's amazing what we can learn about each other when we take time to connect outside of our day-to-day tasks.

HERE'S HOW IT WORKS:

- Organize an in-person, remote or hybrid session and invite the team.
- These work best if they're regular and ongoing - such as bi-weekly or once a month. Lunchtime works great, but this can work over short breaks too.
- Team members volunteer to share their random acts of knowledge or life hacks. Keep it fun!

Shared experiences, inside jokes, collective learning and stress-free collaboration helps bring out the best in teams.
